## PortraitsByTomTom

Fun fashion photo shoots for your little'uns.

### Information and price list

Have you ever wondered what it would be like for your little'uns to be the model in a kids fashion shoot? Well wonder no longer!

Have you ever wanted to have some fun, exciting and vibrant shots of your children, to cherish forever?

Have you ever bought a gorgeous new dress for your little ones and wished it would always look like new?

Well, here at PhotosByTomTom Towers, we have created a choice of fashion photo shoots to suit any style, and with a wide choice of high-quality prints and wall art to choose from, you'll be able to remember the experience forever.

#### Model for a day

The whole point of the shoot is to create a day your children will enjoy and remember for a long time after the camera has been put away. As will all my shoots, I like to be prepared so we can focus on the fun of the photo session. So before the shoot I will send you a "call sheet" (fancy photography speak for a running order, but with extra information included), with details of everything to expect on the day, what time you need to get to the studio, how to get here as well as information on what clothes to bring, and recommendations on bringing your child's favourite toy or accessory to make the shoot as personal to them as possible.

Whatever your style, we have something for you.

There is a whole range of fashion photoshoots, prints, wall art, frames and designs available. Below is a selection of what is on offer. Please get in touch if you want to discuss any ideas or prints not listed below.

## Fashion Photoshoot Packages.

## Prints, Framed Prints & Wall Art.

A fantastic image makes a memorable gift! Remember your children's photoshoot forever with a choice of framed prints and wall art.

### Unframed Prints

We can do prints at any size, and below is just the most popular sizes. All photographic print orders are looked after by two professional labs, depending on the size and style of the print. I have worked with these labs for many years and they know their stuff. Your photos will look amazing in them!

### Framed Prints

A great frame makes all the difference, and we like to use Coldharbour Framing, who are close at hand within the same building. They work with art galleries, photographers and artists all over London and have a reputation for excellent work. I have samples of the most common styles. If you want anything different, please let me know beforehand and I will book an appointment to visit their workshop.
